

I am writing to express my thoughts about how KLOVE radio station impacts our community, and why I do not want to see LPFM stations have priority over current FM translator services.

KLOVE has had only a positive impact with myself and my family. It is difficult raising families in our world today with continuous subjection to amoral values. KLOVE is a radio station that you NEVER have to be concerned about sexual, graphic, or immoral values being presented. For the community as a whole, KLOVE is a positive influence. I would ask that it be considered carefully before allowing displacement of the availability of KLOVE, due to the positive broadcasting that this FM radio station provides. It would be a disservice to myself, my family, and my community. Please do not take this away from people who are trying desperately to keep values and morals. Thank you, Rhonda Tranter
